1. The purpose of assessment

Assessment is the process of identifying, gathering, and interpreting information about a student's learning.

1.1 The key reasons for assessment

- Support & monitor learning
- Diagnose student learning needs and support strategic interventions
- Evaluate the effectiveness of teaching & learning programs
- Inform the reporting process

1.2 Outcomes based assessment

All schools are required to deliver programs of study that comply with the requirements of the NSW Education Standards Authority (NESA) syllabuses (formerly BOSTES). More detailed information concerning each course and syllabus outcomes are available on the NESA website or use the following link:

<http://educationstandards.nsw.edu.au/wps/portal/nesa/home/>

It is a requirement of the school assessment program that, for each course taught, schools establish a program of assessment tasks. These tasks are conducted throughout the year, and each task has a weighting which is used as a component of the reporting process.

School-based assessment tasks are linked to performance descriptors. The marking guidelines relate to specific course outcomes and the NESA performance standards.

1.3 Assessment for learning

Assessment **for** learning enables teachers to use information about students' knowledge, understanding and skills to inform teaching and provide feedback to students about their learning and how to improve.

Assessment **as** learning involves students in the learning process where they monitor their own progress, ask questions and practise skills. Students use self-assessment and teacher feedback to reflect on their learning, consolidate their understanding and work towards learning goals

Assessment **of** learning uses evidence of students learning to assess student achievement against learning goals and standards.

1.4 Assessment schedules and scope and sequences:

Within each subject the assessment schedule and scope and sequence will provide the following:

- Syllabus outcomes relevant to each topic
- Content being studied
- Timing of the individual assessment task (weeks / terms only)
- Weightings of each task

2. Assessment tasks

Assessment Tasks are mandatory for each course. Students are expected to apply themselves with diligence in order to satisfactorily meet course requirements.

A variety of assessment task styles- for example speaking, listening, reading, and writing are included in assessment programs to provide students with varied opportunities to demonstrate achievement of outcomes.

Students who indicate they are sick on the day of an assessment task should contact the subject Head Teacher to discuss whether the student should sit the task and to discuss the required documentation for non-completion

2.1 Procedural fairness

All faculties support student learning by adopting a consistent approach to assessment by ensuring that:

- All students receive two weeks' notice of an assessment task.
- All students sign for their official assessment notification.
- All students sign that they have submitted their assessment task.
- A parent/caregiver is notified within 14 days if a task has not been submitted by the due date.

2.2 Submission of tasks

Students are required to complete and submit mandatory assessment tasks on or before the due date.

Furthermore, students must:

- Make a serious attempt at all assessment tasks.
- Avoid any behaviour which disrupts other students during the completion of a task.
- Approach any task with honesty and avoid any malpractice including cheating or plagiarism.
- Submit work directly to the relevant teacher.
- Inform their teacher in advance if they know they will be absent for a task.
- Ask their teachers about any assessment tasks which may have been issued during any absence.

2.3 Late submission

Assessment Tasks submitted late, without prior arrangement, will lose marks. Penalties for late submission of tasks

Stage 4:

A penalty of **10% per day** (including weekend days) will be applied for the late submission of tasks. After 10 days, a zero mark will be awarded. Prior arrangement must be with the approval of the Head Teacher.

Stage 5

A penalty of **20% per day** (including weekend days) will be applied for the late submission of tasks. After 5 days, a zero mark will be awarded.

2.4 Extensions

If an extension of time is needed, the student must negotiate with the Classroom and Head Teacher of the course at least one week prior to the due date.

2.5 Malpractice

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- Copying someone else's work in part or in whole, and presenting it as their own
- Using material directly from books, journals, cds or the internet without reference to the source
- Building on the ideas of another person without reference to the source
- Buying, stealing or borrowing another person's work and presenting it as their own
- Submitting work to which another person such as a parent, coach or subject expert has contributed substantially using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- Paying someone to write or prepare material
- Breaching school examination rules
- Using non-approved aides during an assessment task
- Contriving false explanations to explain work not handed in by the due date
- Assisting another student to engage in malpractice.

Where cheating is detected a mark of zero will be given for the task to each student involved.

2.6 Student preparation of assessment tasks

Our aim at MGHS is for all students to become responsible for their own learning. Parents / Carers are encouraged to assist in their students learning and establishing a regular home study / revision routine.

3. Student responsibilities

- Students are expected to complete ALL assessment tasks by the due dates and times specified.
- Where assessment tasks involve attendance at excursions, field studies etc, attendance is compulsory.
- All work submitted for assessment must be your own work. (See Malpractice above)
- It is each student's responsibility to be aware of assessment task dates for all courses and to organise a study schedule accordingly.
- Technology malfunction is not an acceptable excuse for non-submission of a task. If this occurs, students should submit the 'draft' of the task (labelled as such) to their teacher on the due date. Keep copies of all drafting so that your progress can be shown in the case of a computer/printer/technology USB malfunction.

4. Notification

Years 7-9 – All assessment tasks not submitted will result in an Academic Warning Letter being sent. Teachers are required to send one warning per task.

5. Absence, illness & misadventure

When a student is absent on the day when a task is due or an in-class assessment performed, and the absence is known beforehand, the student must make arrangements for the task to be submitted or completed on or before time.

A note from the parent/caregiver is required to explain the student's absence from an assessment task. Wherever possible, this is required on the student's first day back at school.

Where special consideration is required, the teacher, in consultation with the Head Teacher, may make arrangements which may include, but are not limited to:

- (i) completing the original task
- (ii) completing an alternate task

Examples of illness/ misadventure include (but not limited to):

- Bereavement
- Illness
- Family Leave
- School Representation for sports or academic pursuits
- Personal Issues

6. Advice to students

- ✓ Be positive and optimistic.
- ✓ Ensure that you are familiar with the sections of this assessment booklet relevant to your pattern of study.
- ✓ As an active learner who exercises self-regulation, take responsibility for managing your assessment schedule and meeting deadlines. The assessment for each term has been mapped out for you in the following pages. Use the summary and a diary or electronic calendar to help with your organisation.
- ✓ Keep a record of tasks completed for each subject so that, at any given time, you know exactly what proportion of your course assessment has been completed and how much remains.
- ✓ Seek feedback from teachers if you are unsure about what you need to do to improve and make further progress.
- ✓ Open communication helps to minimise misunderstanding and confusion. Communication regarding assessment tasks is managed by each faculty- the classroom teacher in the first instance, and then the Head Teacher of the subject concerned. If issues with your health and wellbeing are impacting upon your learning, contact your teachers and Year Advisers so that measures of guidance and support can be discussed.
- ✓ Inform your teacher if you know that you will be absent when a task is due and make alternative arrangements for the task to be submitted or completed on or before the due date.
