Maitland Grossmann High School

Preliminary courses commence Term 1 and conclude at the end of Term 3. The HSC course and associated assessments commence in Term 4 and conclude at the end of Term 3. Students must read this document carefully and be aware of the timing and nature of all their assessment tasks.

This document and associated documents are available on the school website. A copy of the Assessment Policy will be emailed to each student's Department of Education email address. All forms are in PDF format.

Students are advised to print off all relevant assessment schedules and/or save them into a folder for future reference. Students should then create a personal calendar of assessment dates and develop a study timetable to help organise and manage their time effectively.

1. Staff and Student Responsibility

Staff responsibilities:

- Demonstrate an understanding of course content, objectives, and outcomes
- Develop tasks that meet syllabus requirements in the course
- Publish scope, sequence and timing details of all tasks at the beginning of the assessment year
- Ensure that students have copies of all relevant course documents
- Implement classroom assessment procedures according to school and NESA requirements
- Provide parents/students with information that gives a true reflection of student progress
- Provide quality teaching and learning for Year 11 and 12 students, establishing high expectations
- Ensure learning is based on current material and meets syllabus requirements & student needs
- Identify students causing concern and employ strategies to support them and communicate with parents
- Provide strategies to support gifted and talented students

Student responsibilities:

- Make a serious attempt at each task and act on constructive feedback
- Adhere to the HSC assessment guidelines
- Follow a pattern of study that meets their educational needs
- Communicate to their teacher any changes in their circumstances that may impact on their HSC performance

2. HSC Eligibility

To be eligible for the award of the Higher School Certificate students must have:

- Have gained the Record of School Achievement or such other qualifications as the NSW Education Standard Authority (NESA) considers satisfactory;
- Have attended a government school, an accredited non-government school, a school outside New South Wales recognised by NESA or a college of TAFE;
- Have completed HSC: All My Own Work (or its equivalent);
- Have satisfactorily completed courses that comprise the pattern of study required by NESA for the award of the Higher School Certificate; and
- Sit for and make a serious attempt at the requisite Higher School Certificate examinations.
- Demonstrate a minimum standard of literacy and numeracy.

If a student is ineligible for the award of the Higher School Certificate at the end of Stage 6, the student (in exceptional circumstances) may, with the approval of the Principal:

- Repeat some or all Stage 6 courses;
- Accumulate new Stage 6 courses to meet the eligibility requirements for the HSC;
- Or complete the requirements for the HSC within 5 years of the first HSC examination being sat.

3. Pattern of Study

To qualify for the Higher School Certificate students must satisfactorily complete a Preliminary pattern of study comprising at least 12 units and an HSC pattern of study comprising at least 10 units. Both patterns must include:

- at least six units of Board Developed Courses at Preliminary and HSC level
- at least two units of a Board Developed Course in English*
- at least three courses of two-unit value or greater (either Board Developed or Board Endorsed Courses) at Preliminary and HSC level
- at least four subjects- at Preliminary and HSC level

* Satisfactory completion of English Studies fulfils English requirements for the HSC. The course will count towards the 6 units of Board Developed Courses required for the award of the HSC. Students must meet eligibility requirements if studying:

- English (ESL) course
- Continuers course in language
- Beginners course in language
- Heritage course in language

All Preliminary and HSC:

- Board Endorsed Courses have current endorsement
- students have completed the HSC: All My Own Work Program (except Life Skills students)

Eligibility for an Australian Tertiary Admission Rank (ATAR)

To be eligible for an ATAR students must complete at least 10 units of Board Developed Courses including:

- at least eight units from Category A subjects (no more than 2 units of Category B subjects)
- at least two units of English
- at least three Board Developed Courses of two units or greater
- at least four subjects

Board Endorsed Courses and Content Endorsed Courses, including Vocational Content Endorsed Courses and the English Studies Content Endorsed Course do not satisfy requirements for an ATAR.

Administrative Requirements

Students are required to confirm their pattern of study and sign the NESA Confirmation of Entry form.

4. HSC Minimum Standards

Everyone needs reading, writing and numeracy for everyday life. This is why the HSC minimum standard tests have been introduced.

The short online reading, writing and numeracy tests are designed to assess a student's skills for everyday life. To meet the HSC minimum standard student's need to achieve Level 3 or 4. Students will be allowed to undertake the tests two times each year from Year 10 to up to five years after starting their first HSC course. Students do not need to meet the HSC minimum standard to:

- Study HSC courses
- Sit HSC exams
- Receive HSC assessment and exam results
- Receive an ATAR
- Receive a Records of School Achievement
- Only students who meet the HSC minimum standard will receive a HSC testamur.

https://educationstandards.nsw.edu.au/wps/portal/nesa/11-12/hsc/results-certificates/results- documentation

5. Satisfactory Completion

A student will be considered to have satisfactorily completed a course if, in the Principal's view, there is sufficient evidence that the student has:

- followed the course developed or endorsed by NESA; and
- **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- achieved some or all of the course outcomes.

Where internal assessment marks are submitted, a student must complete tasks that contribute in excess of 50% of the available marks in the course.

Students who have not met the above requirements **cannot** be regarded as having satisfactorily completed a course. Courses deemed not to have been completed satisfactorily (meaning, an **N Determination** has been given by the Principal) **will not** appear on the Higher School Certificate. Students who fail to meet the requirements for the HSC will receive a Transcript of Study or Record of Achievement. They will not be eligible for a HSC.

6. School-Based Assessment: Board Developed Courses

In Year 12 students will complete school-based assessments as part of their HSC, which contribute 50% of their final HSC mark for a course (except VET and Life Skills courses).

Assessment in Year 12 will be based on **Mandatory Weightings and Components** as set out in the syllabuses for each HSC course being studied. Each task is linked to syllabus outcomes and students are given the opportunity to demonstrate their level of achievement of the outcomes. Values and attitudes are NOT measured.

Assessment may include research projects, portfolios, performances, oral presentations, viva voce, essays and extended responses, tests and examinations, practical investigations, experiments, and fieldwork to name a few. The nature of tasks varies from subject to subject.

Students must follow the principles set out in HSC: All My Own Work and make a genuine and serious attempt in all tasks. Formal Assessment Tasks MUST be completed and submitted by the published due dates. A ZERO result will be given for ALL late Assessment Tasks. Students will have access to an Illness and Misadventure process to cover genuine illness and misadventure which results in late submission.

At the end of each course, and based only on formal assessment tasks, the school will submit to NESA an overall school-based assessment mark for each student in each Board Developed Course (Except VET and Life Skills Courses, English Studies and Mathematics Standard 1). This mark equates to a **rank** (a student's position in relation to other students) in a course. This is a **mark out of 100 for 2 Unit courses** and a **mark out of 50 for 1 Unit** (and Extension 1) courses. The mark is moderated by NESA based on a student's performance in the HSC examination for that course. Moderation takes account of how an assessment mark given by one school compares with marks given to students doing the same course/s in a different school.

For English Studies and Mathematics Standard 1 students will be awarded a result based on their school assessment according to the Achievement Level Descriptions for each subject.

7. School-Based Assessment: Board Endorsed Courses

All requirements for the assessment of Board Developed courses apply to the assessment of Board Endorsed courses.

Schools are required to submit internal assessment marks, in accordance with the Performance Description for Reporting Achievement in Stage 6 Board Endorsed courses, for students undertaking these courses. These marks are reported on the Record of Achievement but are not moderated by NESA.

8. School-Based Assessment: VET

Assessment in VET courses is competency based. This means that the student needs to demonstrate that they have gained, and can apply, the specific knowledge and skills for the unit of competency to be deemed competent in that unit. Evidence of competence will be collected in a variety of ways including written tasks, practical demonstration, portfolio or assignments.

The student may be deemed Competent if performance in all required assessment activities is to industry standard or Not Yet Competent, if they are still developing skills and/or your performance is not to industry standard. There is no pass or fail. This means that a course mark is not allocated. For this reason, the assessment schedule for HSC VET courses is in a different format to other Board Developed Courses. Formal assessment will be scheduled only when students have developed the necessary skills, and underpinning knowledge to demonstrate competency.

The teacher (trainer) will keep a record of units of competency achieved. Students may request to see this record at any time to determine their progress. Students are entitled to seek advice about options for further training and assessment for competencies assessed as not yet competent. Students will also receive a report from the school each semester indicating competencies achieved to date.

The achievement of units of competency, will lead to a Certificate at AQF level I, II or III or a Statement of Attainment (SOA) towards the AQF qualification. A transcript will be made available by the NSW Education Standards Authority (NESA) on behalf of Public Schools NSW Wagga Wagga, Registered Training Organisation (RTO) 90333.

Recognition of Prior Learning (RPL) is available by submitting evidence of skills and knowledge relevant to the unit/s of competency for assessment, prior to the commencement of the course.

Credit Transfer may be given for units of competency previously achieved with another RTO.

Work placement is a mandatory HSC component in some courses and must be completed during the course.

Note: Students will not be permitted to participate in a work placement if they are not deemed work ready by their trainer. An N determination will be issued if work placement is not satisfactorily completed. This means that the course will not count towards their HSC pattern of study. However, students will still receive a Statement of Attainment which indicates the units of competency achieved towards the qualification.

HSC examination is only available in some VET courses.

The examination is optional for students completing the 240 hour course and is intended for Australian Tertiary Admissions Rank (ATAR) purposes only.

The HSC examination is independent of the competency-based assessment requirements for the Australian Qualifications Framework (AQF) VET qualification. The satisfactory completion of the course will still appear on your HSC if the optional exam is not undertaken.

If a student intends to use their VET course towards the calculation of the ATAR, the school must submit an estimated mark of their likely performance in the HSC examination. This will only be used in the case of an illness/misadventure appeal. Students who are planning on sitting the HSC examinations for ATAR eligibility, must sit the trial exam.

Students need to be aware that all NESA requirements for satisfactory completion of courses, AMOW, applications for illness/misadventure, examination disability provision applications apply to VET courses.

9. Disability Provisions

For students with an identified or diagnosed long or short-term disability, the school provides, in line with procedures and provisions approved by NESA for the external HSC examinations, access to provisions. These provisions are designed to (as far as possible) remove a student's barrier or disadvantage when accessing course work and assessments. If assessed eligible, students may be given provisions such as:

- readers and/or writers;
- time to rest;
- time to take medication;
- increased font/work size;
- separate supervision;
- adjustments to the physical environment (e.g. special furniture or lightning).

Students must inform their course teacher if they believe they might be eligible for a Disability Provision. Appropriate documentation must be provided (e.g., medical certificates, medical reports etc. that are no older than 12 months in nature and must be specific e.g., relate clearly and specifically the impact the disability has on learning/performance in assessment tasks/exams).

The Faculty Head Teacher may approve a disability provision for a school-based assessment task.

Please be aware that, School Based Disability Provisions granted for school-based tasks, may not be approved by NESA for external HSC examinations.

10. Life Skills Courses

Life Skills courses have been developed by NESA for students with special education needs, in particular, those with an intellectual disability for whom the regular outcomes and content of Board Developed and/or Board Endorsed Courses are not appropriate. Students enrolling in any Stage 6 Life Skills courses will usually have completed Years 7–10 Life Skills outcomes and content in one or more courses.

Students undertaking a Stage 6 Life Skills course will be assessed on their achievement of the Life Skills outcomes identified in the planning process for the individual student. Students can demonstrate achievement of outcomes in a number of ways, and across a range of environments, including the school, community and workplace.

Evidence of achievement of outcomes can be gathered through ongoing assessment. There is no requirement for formal assessment of Life Skills outcomes. The Profile of Student Achievement lists all the Life Skills outcomes achieved by the student in each Life Skills course completed. Students need to be aware that NESA requirements for satisfactory completion of courses apply to Life Skills Courses.

Students entered for Life Skills courses may achieve the designated outcomes either independently or with support. Stage 6 Life Skills courses have no HSC examinations and results cannot be used in the calculation of an ATAR.

11. Assessment tasks

Task Weight

An individual task should not normally be worth less than 10%, nor more than 40%, of the total assessment marks. One task may address several course outcomes. In general, there is no requirement that tasks occurring later in the course carry more weight than earlier tasks.

Task Type

- The syllabus provides guidance in relation to the types of tasks that are suitable. The assessment tasks used should be appropriate to the outcomes and component of the course being assessed. For example, tasks could include assignments, fieldwork studies and reports, model making, oral reports, research projects, practical tests and open-ended investigations, viva voce, improvisations, arrangements, original compositions, portfolios, and presentations of performance.
- The assessment tasks should allow for a range of marks to allow for discrimination between the performances of individual students and be set at an appropriate level of difficulty that allows the full range of marks to be available.
- Head Teachers are required to validate each task prior to distribution to students.
- All assessment tasks for a course should be completed by each candidate.
- Tasks should be personally or electronically submitted in the timetabled period for that subject, on or before the due date unless otherwise stated on the task notification.
- The students will sign the Assessment Task Register Sheet to acknowledge the receipt, submission and return of a task.
- Teachers should assess the students' actual performance, not potential performance. Assessment marks must not be modified to take into account the possible effects of illness or domestic situations.

Students who indicate they are sick on the day of an assessment task should contact the subject Head Teacher to discuss whether the student should sit the task and to discuss the required documentation for non-completion.

(See PROCEDURES FOR LATE SUBMISSION AND NON-COMPLETION OF TASKS)

Notification

- At least two weeks' notice of the details of a task should be given and, in addition to the Assessment Schedule and Scope and Sequence in this handbook, each task should notify students of the precise date, outcomes assessed, weighting for components and marking guidelines (where appropriate).
- Students are to sign that they have received the assessment task notification.
- If a student is absent on the day that a notification for an assessment task is given to students, the teacher will give student their notification the next day that they are present. Note, unless there are exceptional circumstances, an extension of time for the task will not be granted.

Scheduling

General Guidelines:

- Assessment in the Preliminary course should not begin before Week 5 of Term 1 for that cohort.
- Assessment for the HSC course may commence in Term 4 of the year prior to the HSC examination in that course.

Trial HSC Examination:

- Most courses will have a Trial HSC Examination (except English Extension 2 and some CEC and BEC courses);
- The Trial HSC should form a significant part of assessment.
- Examination papers should mirror the HSC as far as possible in skills, content, duration, and difficulty

Students:

- Are required to wear school uniform.
- Are not permitted to leave the examination earlier than the finish time.
- Need only attend school during the time of their scheduled examinations.

If a student is absent from the Trial HSC they are required to:

- Contact the school on the day of the examination.
- Catch-up the task within the scheduled examination period.

Submission of Assessment Tasks:

All hand in assessment tasks must be submitted as directed on the assessment notification. For electronically submitted tasks, students have a responsibility to ensure:

- The correct electronic file is attached.
- The file is not corrupt.

Note that technology fault is not grounds for appeal.

- HSC assessment takes precedence over all school and external activities, including excursions, work placement for VET, work experience, competitions, sporting events and family holidays. However, accommodations may be made where appropriate and alternate arrangements may be made with the Faculty Head Teacher prior to tasks, to arrange early or alternate submission.
- Change of dates for assessment tasks must be informed to students in writing and students must sign to acknowledge the change. Changes must be altered on the School Calendar and website.

12. Changes to course assessment schedules

In exceptionally rare circumstances, a change to a course assessment schedule may need to be made. The Head Teacher of the course, after consulting with the Deputy Principal, will inform all students affected in writing of the change. Sufficient time will be given to students to complete their work by the new due date/s. All care will be taken to minimise clashes and heavy workload periods, but this cannot always be guaranteed.

13. Procedures for the administration of tasks

For separate classes completing the same course, Head Teachers are required to ensure that:

- Students receive the same information to ensure consistency in the administration of the assessment task.
- Where possible, the task should be completed on the same day/period to protect the integrity of the task.
- All students have the same examination conditions and experiences.

Preliminary and HSC English speeches will generally be held over on the same day(s) to ensure fairness and the consistent implementation of the task.

During an assessment task, students must turn off their mobile phone and place it in their school bag or receptacle provided by the teacher. Students who breach this rule may have a penalty imposed, such as a zero for the task

14. Procedures for Illness/Misadventure

Explaining the Illness/Misadventure form

Tasks handed in late, or completed late, will receive a zero. A student has the right to appeal the zero mark by completing an ILLNESS/ MISADVENTURE APPEAL FORM.

What Is Illness and Misadventure?

NESA will only consider awarding special consideration in cases of illness and misadventure. These are defined as:

- Illness: Any sickness or injury that prevents a student from attending school.
- Misadventure: Any unforeseen circumstance or incident that prevents a student from attending school.

An Illness-Misadventure Form is used when an assessment task is:

- Not submitted on time.
- Submitted incomplete.
- During extra-ordinary circumstances.

Where a student experiences a misadventure, they should obtain an Illness-Misadventure Appeal Form. This must be done on the same day where possible or the next day of attendance including attendance at the next examination after the misadventure.

STUDENTS CANNOT SUBMIT AN APPEAL ON THE BASIS OF:

- Difficulties in preparation or loss of preparation time / technology fault
- Alleged deficiencies in teaching
- Long-term illness such as glandular fever unless they are suffering a flare-up of the condition during the examination or assessment period
- Misreading the examination timetable
- Misreading assessment task or examination instructions
- Other commitments such as holidays, participation in entertainment, work or sporting events, or attendance at examinations conducted by other institutions or organisations. Special consideration for changes to the scheduled date must be made in writing, addressed to the principal and well in advance of the event.
- Illness once the assessment paper is opened during the reading time, or after the examination commences.

Special consideration for reasons other than illness/misadventure requests must be made in writing, addressed to the Principal and well in advance of the event. The decision of the Principal is final.

15. Completing the Illness/Misadventure form

Student to complete

This section is to be completed by the student. Reasons for the Illness- Misadventure appeal must be documented in this section. Relevant documentation (e.g. doctor's certificate, statutory declaration, other) must be attached. This section is signed by the student and parent/carer.

It is the student's responsibility to complete the Illness-Misadventure Appeal and return it to the faulty head teacher, or deputy principal (or delegate) within five school days of the due date of the task. Late appeals may be considered but only in the event of exceptional circumstances.

Head Teacher

The Head Teacher makes recommendations.

Deputy Principal

The appeal is then completed by the Deputy Principal (within policy guidelines), who may:

- Uphold the appeal (marks may be awarded)
- Dismiss the appeal (mark of zero is maintained)
- Impose a penalty (marks are adjusted)

The result will be communicated to the student by the Deputy Principal or class teacher.

If the Deputy Principal dismisses the appeal, the student has the option of requesting an Appeals Committee review.

Appeals

The Appeals Committee shall be convened by the Principal and include MGHS Executive. This committee will make a recommendation.

The committee may:

- Uphold the appeal (marks may be awarded)
- Dismiss the appeal (mark of zero is maintained)
- Impose a penalty (marks are adjusted)

The committee will communicate the outcome of the appeal to the student. This may include an extension of time, a substitute task, or an estimated mark. All Documents related to the appeal will be placed in the student's file and the class teacher's HSC Compliance folder

See Appendix A for Illness/Misadventure form

16. Malpractice

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- copying someone else's work in part or in whole, and presenting it as their own
- using material directly from books, journals, CDs or the internet without reference to the source
- building on the ideas of another person without reference to the source
- buying, stealing or borrowing another person's work and presenting it as their own
- submitting work to which another person such as a parent, coach or subject expert has contributed substantially using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- paying someone to write or prepare material
- breaching school examination rules
- using non-approved aides during an assessment task
- contriving false explanations to explain work not handed in by the due date
- assisting another student to engage in malpractice.

These issues are addressed directly by NESA in HSC: All My Own Work. In the case of suspected or proven malpractice, students will be required to provide evidence that all unacknowledged work is entirely their own. Such evidence might include, but is not limited to, the student:

- providing evidence of and explaining the process of their work, which might include diaries, journals or notes, working plans or sketches, and progressive drafts to show the development of their ideas; and/or
- answering questions regarding the assessment task, examination or submitted work under investigation, to demonstrate their knowledge, understanding and skills.

A student's work may be checked for malpractice through plagiarism software such as 'turnitin'. Teachers and students will be able to receive reports outlining the percentage of work that is the students own work and the percentage of work that could be considered plagiarised.

Where cheating is detected a mark of zero will be given for the task to each student involved. It is NESA requirements that the students name be added to a Malpractice Register.

Where a student is present on the day of the task and truants in periods prior to undertaking the task, penalties may apply.

If malpractice is suspected, the Course Teacher must inform the Head Teacher of the course. The Course Teacher will provide to the Head Teacher evidence to support the malpractice (eg, the Internet page copied, other student work that is the same, the Turnitin report etc). The Head Teacher with the Course Teacher will determine the extent of the malpractice.

A student penalised for malpractice has access to the appeals process.

17. Malpractice Procedures

In cases where malpractice is suspected or has been proven the following procedures will be applied:

- 1. The student, parent/caregiver will be informed (verbally or in writing) by the Course Teacher or Head Teacher, of the suspected or proven malpractice and be presented with the evidence, in a timely manner.
- 2. An N Warning letter will be generated by the Course Teacher or Head Teacher to officially inform the student/supervisor of the malpractice and what the student needs to do to redeem the N Warning letter.
- 3. The student will be given the opportunity to present any evidence or information to support their position (drafts of work, witness statements, etc) to the Course Teacher and Head Teacher.
- 4. Notes/records of any discussions/interviews will be taken by the Course Teacher or Head Teacher and kept securely.
- 5. Confidentiality will be maintained at all times by all parties.
- 6. Head Teacher to inform Deputy Principal of malpractice for updating of NESA Malpractice register
- 7. The student will be informed of their right of appeal and the appeal process. Appeals must be lodged to the Deputy Principal within 2 school days of verbal/written notification of an incidence of malpractice.

Consequences of Malpractice

Proven malpractice will limit a student's marks, or result in a zero mark being given. It will impact their overall final assessment mark and rank. Proven malpractice MUST be registered with NESA in the Malpractice Register in Schools Online. This will be done by Deputy Principal with information supplied by the Head Teacher.

One or more of the following consequences may be applied to proven malpractice:

- reduced marks for all or part of the assessment task
- zero marks for part or all of the assessment task;
- an N Warning letter sent to the student/supervisor;
- withdrawal from course(s).

After being informed of the consequence of proven Malpractice, students have 2 school days to appeal a decision made by the Head Teacher of the course, to the Deputy Principal (Appendix 2 needs to be completed).

The Deputy Principal will review the evidence and inform the student and supervisor of their decision verbally or in writing. Notes of any discussion/interview will be made and retained.

If the student, parent/caregiver is not satisfied with the decision of their appeal to the Deputy Principal, a final appeal can be made to the Principal. This appeal MUST be made within 2 school days of being informed of the Deputy Principal's decision. The appeal must be made to the Principal in writing and any new evidence provided. The Principal's decision will be final.

See Appendix B for Malpractice appeals form

18. Procedures For Awarding Marks

The HSC requires that a standard referenced approach be used for assessing and reporting student achievement. Assessment tasks allow measurements of student performance in relation to course outcomes, including those not readily measured by an examination. This serves to provide several types of measurements over a period of time. In a standards-referenced approach, the assessment mark submitted to the Board of Studies will reflect the rank order and relative difference between the achievements of students, based on the extent to which students have demonstrated the achievement of the outcomes.

Marks are calculated on the basis of the mandatory assessment components and weightings found in the syllabus for each course. Marks will be aggregated to the nearest whole number and ranked accordingly.

Assessment marks should show the relative differences between student performances. This is best achieved when a sufficiently wide mark range is used in allocating the marks for the individual tasks.

It is stressed that the final assessment mark should not be revealed to the students, but students must be informed that they can receive their final assessment rank and will be provided on their semester two report.

19. Procedures for late submission and non-completion of tasks

Tasks handed in late, or completed late, will receive a zero. A student has the right to appeal the zero mark by completing an ILLNESS/ MISADVENTURE APPEAL FORM.

Where the teacher of the class is absent on the due date

• Where a teacher is absent on the day for an in-class task, the Faculty Head Teacher or senior teacher will arrange alternative cover and/or collection of the task.

Where a student is absent on the due date

- Where a student is absent on the day an assessment task is due either for medical reasons or any other reason, a zero must be given initially and the student has the right to appeal via the submission of an Illness/Misadventure Form with the relevant documentation.
- When a student is absent on the day when a written task is to be handed in task or an in-class assessment performed, and the absence is known beforehand, the student must make arrangements for the task to be submitted, or completed, on or before time.
- Where a student is absent on the day of a hand-in task because of illness/misadventure, the student must arrange for the task to be handed in on time by an agent OR the task must be submitted electronically by the end of the school day 3:10pm.
- Where the student has been absent on the day the assessment task was due and the task was not handed in by arrangement due to misadventure, the student must hand in the task to their teacher on their first day of attendance.
- Relevant evidence (e.g. doctor's certificate, statutory declaration, other) covering all days of absence, together with an Assessment Illness/Misadventure Appeal form must be supplied within five school days.
- Where a student is absent on the day of an in-class assessment, it is the responsibility of the student to see their teacher/ Head Teacher of the relevant course on the first day of attendance after illness and to make alternative arrangements for completion of the assessment task. The student must be prepared to sit the task first day back at school. Relevant evidence (eg. current doctor's certificate, statutory declaration, other) covering all days of absence must be submitted alongside an assessment illness/misadventure appeal form within five school days.
- Failure to follow the above procedures will result in an N Award Warning letter being sent to parents/caregivers of the student and a mark of zero.
- Under no circumstances does a suspension from school entitle a student to submit an assessment after the due date. If a student is on suspension from school at the time when an assessment item is due, it remains the student's responsibility to ensure the task is submitted on the due date. It is the student's responsibility to notify the Principal at the time of suspension that an assessment task is to be completed in class over the period of suspension. Where appropriate, the student may be asked to complete the task on return from suspension.

20. Invalidity of Assessment Tasks

Where invalid or unreliable results have been produced by an assessment task the faculty Head Teacher should be notified. This may be where a task does not function as required, or where there are problems in the administration.

The Head Teacher will ascertain the reasons for the unreliable or invalid results and implement one or more of the following processes as appropriate:

- negotiation with all students affected.
- implement an alternate task supplied for the whole or part of the original.
- mark adjustment to discount the invalid part of the test.
- other, as determined by the Head Teacher.

An investigation will be undertaken by the Deputy Principal and Head Teacher of the Faculty involved.

21. Maintaining Records

Procedures for providing assessment marks for students who transfer into the school after the commencement of the HSC course.

For students who transfer into the school before 30 June in the year of the Higher School Certificate examination, MGHS will request the former school forward information regarding:

- assessment marks, task weightings and rank
- N-Awards

The marks provided can be used as the basis of estimates for task that have been missed. Tasks attempted after enrolment can also be used to assist this estimate.

For students who transfer into the school after 30 June in the year of the Higher School Certificate examination, the previous school is to provide assessment marks.

In the case of VET courses for the Higher School Certificate, students who have achieved units of competency through study or experience are not required to be reassessed for recognition of those units of competency. However, a qualified assessor from an RTO must have assessed such competencies.

22. Assessment Feedback

Teachers provide feedback to students to assist their learning. The effectiveness of feedback to students on their performance on assessment tasks can result in significantly improvement in the standards-based system used for the HSC.

Feedback on tasks should be meaningful and provide students with an indication of their performance relative to the outcomes being assessed and their general progress. The wording of outcomes and the band descriptions can be used, where appropriate, for providing feedback to students. Teachers are encouraged to make available work samples to students as a standards reference. Appropriate marking guidelines are devised prior to applying the task and certified by the Head Teacher.

For each assessment task students should receive clear feedback on their performance. This should include what they are able to do and what they need to do in order to improve their performance. This advice should indicate:

- Students' attainments in the task relative to the outcomes
- Students' relative positions within the course group.

Students should sign the Assessment Task Register Sheet to acknowledge that feedback, rank & progressive rank are received.

In the case of VET courses, the assessment of competencies is on the basis of performance against the performance criteria set out under each element of competency. A participant is judged either competent or not yet competent. This judgement is made on the basis of a range of evidence, which may be in a variety of forms.

23. Procedures for N-warning and Determination

If the Principal determines that a student is in danger of not completing a course satisfactorily, the student will be warned in writing in time for him/her to correct the problem and satisfactorily complete the course. A minimum of two warning letters for each course is required for N-Determination. The Principal will use the following as a guide for N-Determination:

- 50% Rule: In addition to any other set tasks and experiences in any course, students must complete assessment tasks that contribute in excess of 50% of available marks.
- Set Tasks and Experiences: Principals must determine if there is sufficient evidence to progress with an N determination for a student's application of diligence and sustained effort to the set tasks and experiences provided in the course by the school.

If a decision is made to progress with an N-Determination:

- The Principal or delegate will notify the parent/carer that in the school's view, their student has not met the completion requirements for the award of the Preliminary HSC or HSC
- Offer an Appeal form (if required) and review the appeal.
- Form an Appeals panel (if required)
- If the appeal is upheld, award the marks for the course.
- If the Appeal is declined, forward all documentation to NESA for determination.
- If an 'N' determination is given:
- the course will be listed as 'Not Completed' on the Record of Secondary Achievement.
- the student may be ineligible for the award of a Preliminary HSC or HSC.

24. Practical and submitted works

Students are required to be provided with written notice of:

- relevant guidelines for the project work so the work falls within NESA and HSC guidelines for size, weight and duration.
- examination dates for practical, submitted works and performances.

Teachers should ensure that students understand what malpractice is, and how it relates to their projects. This includes students understanding the requirements regarding outside assistance, and that outside assistance is acknowledged in the project documentation.

Teachers must certify that the work is the students' own original work and that any material drawn from other sources or any outside assistance is acknowledged

Students must sign to acknowledge the receipt of NESA guidelines.

25. Examination Procedures

Students:

- must be prompt to the examination. Students should assemble outside the Western side of the hall or other designated venue (minimum 15 minutes prior to the commencement the examination).
- are required to fill in an attendance slip for every examination. The slips will be collected and forwarded to the relevant faculty.
- are not permitted to leave the venue before the end of the examination.
- must not talk once they have entered the examination venue.
- will be directed where to sit. When there are multiple exams, subject groups will sit together.
- must be responsible to make sure that the correct examination paper has been provided for the course entered. When asked to do so by the supervisor, check the examination papers to make sure that there are no pages missing.
- during reading time, must not write, use any equipment including highlighters, or annotate examination paper in any way.
- may consult their dictionary during reading time in examinations where dictionaries are permitted.
- must read the instructions on the examination paper carefully as well as all questions. Supervisors are not permitted to interpret examination questions or instructions relating to questions.
- write clearly, preferably with black pen.
- write answers in the correct answer booklets.
- stop writing immediately when told to do so by the supervisor.
- must follow the supervisor's instructions at all times.
- must behave in a polite and courteous manner towards the supervisors and other students.
- must make a serious attempt at the examination.
- must not leave until dismissed by the supervising teacher.
- must not remove any examination papers from the examination room. If students want to see an examination paper after the examination is over, they will need to speak to their teacher.

If a student is absent on the day of a scheduled examination, they are to make contact with the Faculty running that examination.

EQUIPMENT CHECKLIST FOR EXAMINATIONS

Students may only take equipment listed below into the examination room:

- black pens (blue is also acceptable but black is easier for markers to read) pencils, erasers, sharpener (use pencils where specifically directed).
- a ruler marked in millimetres and centimetres
- highlighter pen
- a bottle of water in a clear bottle.
- watches- Students can wear their watch into the examinations, but once they sit down they will have to take it off and place it in clear view on their desk. Programmable watches, including smartwatches, will not be allowed in the examination room.
- specific course equipment approved by NESA can be found at Equipment Checklist for the Higher School Certificate Examinations website

All equipment brought in may be subject to inspection on entry. Students will be directed to place any unauthorised equipment or material in a designated area. Examination staff will not be responsible for these items.

- Students are not permitted to borrow equipment during examinations.
- Students may only use scientific calculators that appear on the NESA list of approved scientific calculators.
- Students are permitted to take dictionaries into certain Language examinations. However, they must be monolingual and/or bilingual print dictionaries relating to the language being examined. Dictionaries cannot be annotated or highlighted in any way, including using stickers to mark a particular place. Electronic dictionaries are not permitted.

Students must NOT bring any of the following into the examination room:

- a mobile phone or smartwatch
- any electronic device (except a calculator where permitted). This includes communication devices, organisers, tablets (e.g. iPads, etc.), music players or electronic dictionaries.
- paper or any printed or written material (including the examination timetable)
- correction fluid or correction tape.

| Outcome(s) | CH12 - 2, 3, 4, 5, 6, 7, 12 | CH12- 4, 5, 6, 7, 13 | CH12 - 1, 3, 5, 6, 7, 14 | CH12 - 1, 2, 3, 4, 5, 6, 7, 12, 13, 14, 15 | |
| | SCHOOL-BASED ASSESSMENT REQUIREMENTS | | | | |
| | WEIGHTING(S) | | | | |
| COMPONENTS | Task 1 | Task 2 | Task 3 | Task 4 | TOTAL |
| Skills in Working Scientifically | 20 | 10 | 15 | 15 | 60% |
| Knowledge and Understanding | 5 | 10 | 10 | 15 | 40% |
| TOTAL | 25% | 20% | 25% | 30% | 100% |

| Outcomes – A | Outcomes – A student: | | | | |
|--------------|--|--|--|--|--|
| CH12 - 1 | Develops and evaluates questions and hypotheses for scientific investigation | | | | |
| CH12 - 2 | Designs and evaluates investigations in order to obtain primary and secondary data and information | | | | |
| CH12 – 3 | Conducts investigations to collect valid and reliable primary and secondary data and information | | | | |
| CH12 – 4 | Selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media | | | | |
| CH12 – 5 | Analyses and evaluates primary and secondary data and information | | | | |
| CH12 – 6 | Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes | | | | |
| CH12 - 7 | Communicates scientific understanding using suitable language and terminology for a specific audience or purpose | | | | |
| CH12 -12 | Explains the characteristics of equilibrium systems, and the factors that affect these systems | | | | |
| CH12 -13 | Describes, explains and quantitatively analyses acids and bases using contemporary models | | | | |
| CH12 -14 | Analyses the structure of, and predicts reactions involving, carbon compounds | | | | |
| CH12 -15 | Describes and evaluates chemical systems used to design and analyse chemical processes | | | | |

Community and Family Studies - Year 12 S&S

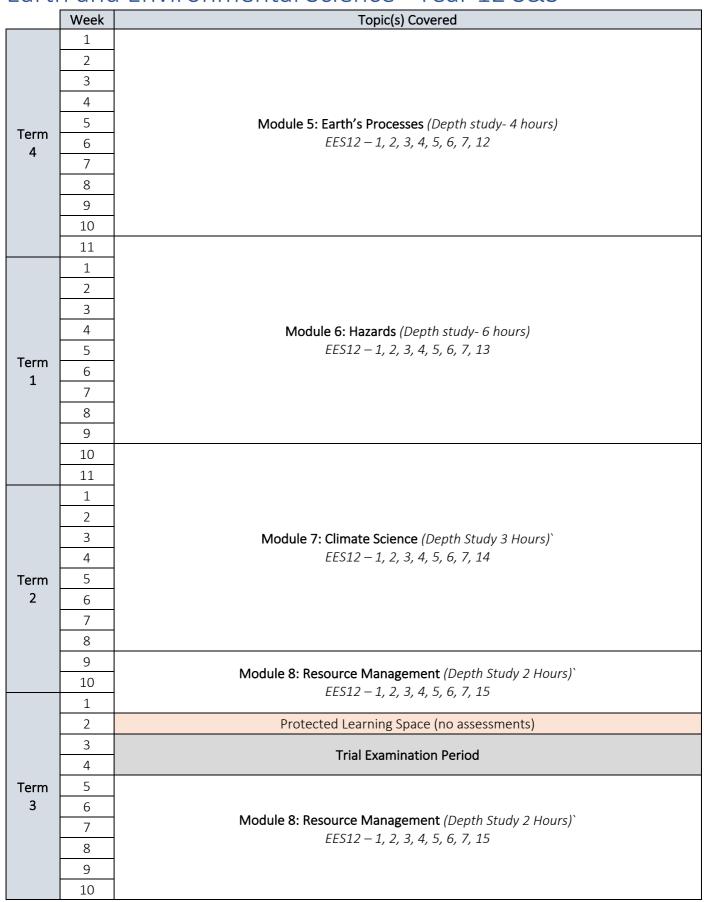

Community and Family Studies - Year 12 Assessment Schedule

| | Task 1 | Task 2 | Task 3 | Task 4 | |
|--|--------------------------------------|----------------------|---------------------|----------------------------|-------|
| Task Description | Independent Research Project | Case Study | Support Networks | Trial HSC | |
| Task Type | Research Project | Written Responses | Research | Examination | |
| Timing | Term 4 Week 8 | Term 1 Week 8 | Term 2 Week 6 | Term 3 Week 3 & 4 | |
| Outcome(s) | 4.1 4.2 | 2.2 3.3 6.2 | 2.1 3.2 5.1 | 1.1 2.3 3.1 3.4 4.1 6.2 | |
| | SCHOOL-BASED ASSESSMENT REQUIREMENTS | | | | |
| | WEIGHTING(S) | | | | |
| COMPONENTS | Task 1 | Task 2 | Task 3 | Task 4 | TOTAL |
| Knowledge and understanding of course content | - | 10 | 10 | 20 | 40% |
| Skills in critical thinking, research methodology, analysing and communicating | 20 | 15 | 15 | 10 | 60% |
| TOTAL | 20% | 25% | 25% | 30% | 100% |

| Outcomes | s – A student: |
|----------|---|
| H1.1 | analyses the effect of resource management on the wellbeing of individuals, groups, families and communities |
| H2.1 | analyses different approaches to parenting and caring relationships |
| H2.2 | evaluates strategies to contribute to positive relationships and the wellbeing of individuals, groups, families and communities |
| H2.3 | critically examines how individual rights and responsibilities in various environments contribute to wellbeing |
| H3.1 | analyses the sociocultural factors that lead to special needs of individuals in groups |
| H3.2 | evaluates networks available to individuals, groups and families within communities |
| H3.3 | critically analyses the role of policy and community structures in supporting diversity |
| H3.4 | critically evaluates the impact of social, legal and technological change on individuals, groups, families and communities |
| H4.1 | justifies and applies appropriate research methodologies |
| H4.2 | communicates ideas, debates issues and justifies opinions |
| H5.1 | proposes management strategies to enable individuals and groups to satisfy their specific needs and to ensure equitable access to resources |
| H5.2 | develops strategies for managing multiple roles and demands of family, work and other environments |
| H6.1 | analyses how the empowerment of women and men influences the way they function within society |
| H6.2 | formulates strategic plans that preserve rights, promote responsibilities and establish roles leading to the creation of positive social environments |

| Outcomes | G – A student: |
|----------|---|
| H1.1 | uses acting skills to adopt and sustain a variety of characters and roles |
| H1.2 | uses performance skills to interpret and perform scripted and other material |
| H1.3 | uses knowledge and experience of dramatic and theatrical forms, styles and theories to inform and enhance individual and group devised works |
| H1.4 | collaborates effectively to produce a group-devised performance |
| H1.5 | demonstrates directorial skills |
| H1.6 | records refined group performance work in appropriate form |
| H1.7 | demonstrates skills in using the elements of production |
| H1.8 | recognises the value of the contribution of each individual to the artistic effectiveness of productions |
| H1.9 | values innovation and originality in group and individual work |
| H2.1 | demonstrates effective performance skills |
| H2.2 | uses dramatic and theatrical elements effectively to engage an audience |
| H2.3 | demonstrates directorial skills for theatre and other media |
| H2.4 | appreciates the dynamics of drama as a performing art |
| H2.5 | appreciates the high level of energy and commitment necessary to develop and present a performance |
| H3.1 | critically applies understanding of the cultural, historical and political contexts that have influenced specific drama and theatre practitioners, styles and movements |
| H3.2 | analyses, synthesises and organises knowledge, information and opinion in coherent, informed oral and written responses |
| H3.3 | demonstrates understanding of the actor-audience relationship in various dramatic and theatrical styles and movements |
| H3.4 | appreciates and values drama and theatre as significant cultural expressions of issues and concerns in Australian and other societies |
| H3.5 | appreciates the role of the audience in various dramatic and theatrical styles and movements |

|--|--|--|--|-------|
| Task Description | Civil Structures | Aeronautical | Trial HSC Exam | |
| Task Type | Engineering Report | Engineering Report | Exam | |
| Timing | Term 1 Week 4 | Term 2 Week 5 | Term 3 Week 3/4 | |
| Outcome(s) | H2.1, H2.2, H3.1, H3.2, H3.3, H5.1, H5.2, H4.1, H4.2, H6.1, H6.2 | H1.1, H1.2, H5.1, H5.2, H4.1, H4.2. | H1.1, H1.2, H2.2, H5.1, H5.2, H4.1, H4.2 | |
| | SCHOOL-BASED ASSESSMENT REQUIREMEN | | | NTS |
| | | WEIGHTIN | IG(S) | |
| COMPONENTS | Task 1 | Task 2 | Task 3 | TOTAL |
| Knowledge and skills in research, problem solving, and communication related to Engineering practice | 15 | 15 | 10 | 40% |
| Knowledge and Understanding of course content. | 20 | 20 | 20 | 60% |
| TOTAL | 35% | 35% | 30% | 100% |

| Outcomes - | Outcomes – A student: | | | | | |
|------------|--|--|--|--|--|--|
| H1.1 | Describes the scope of engineering and critically analyses current innovations | | | | | |
| H1.2 | Differentiates between the properties and structure of materials and justifies the selection of materials in engineering applications | | | | | |
| H2.1 | Determines suitable properties, uses and applications of materials, components, and processes in engineering | | | | | |
| H2.2 | Analyses and synthesises engineering applications in specific fields and reports on the importance of these to society | | | | | |
| H3.1 | Demonstrates proficiency in the use of mathematical, scientific, and graphical methods to analyse and solve problems of engineering practice | | | | | |
| H3.2 | Uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports | | | | | |
| H3.3 | Develops and uses specialised techniques in the application of graphics as a communication tool | | | | | |
| H4.1 | Investigates the extent of technological change in engineering | | | | | |
| H4.2 | Applies knowledge of history and technological change to engineering based problems | | | | | |
| H4.3 | Applies understanding of social, environmental and cultural implications of technological change in engineering to the analysis of specific engineering problems | | | | | |
| H5.1 | Works individually and in teams to solve specific engineering problems and prepare engineering reports | | | | | |
| H5.2 | Selects and uses appropriate management and planning skills related to engineering | | | | | |
| H6.1 | Demonstrates skills in research and problem-solving related to engineering | | | | | |
| H6.2 | Demonstrates skills in analysis, synthesis and experimentation related to engineering | | | | | |

English Advanced - Year 12 Scope & Sequence

English Advanced – Year 12 Assessment Schedule

| | Task 1 | Task 2 | Task 3 | Task 4 | |
|---|--|---------------------------------------|-------------------------------|---|-------|
| Task Description | Texts and Human Experience | Module A: Textual Conversations | Module C: Craft of Writing | HSC Examination | |
| Task Type | Multimodal Presentation with related material | Analytical Response | Imaginative response | Common Module Module A Module B Module C | |
| Timing | Term 4 Week 9 | Term 1 Week 5 | Week 2 Week 3 | Term 3 Week 3-4 | |
| Outcome(s) | EA12-2, EA12-6 | EA12-8 | EA12-5, EA12-9 | EA12-1, EA12-3, EA12-4, EA12-7 | |
| | SCHOOL-BASED ASSESSMENT REQUIREMENTS | | | | |
| | WEIGHTING(S) | | | | |
| COMPONENTS | Task 1 | Task 2 | Task 3 | Task 4 | TOTAL |
| Knowledge and understanding of course content | 10 | 15 | 10 | 15 | 50 |
| Skills in responding to texts and communication of ideas appropriate to audience, purpose and context across all modes | 15 | 10 | 10 | 15 | 50 |
| TOTAL | 25% | 25% | 20% | 30% | 100% |

| Outcomes – A | Outcomes – A student: | | | | | |
|--------------|---|--|--|--|--|--|
| EA12-1 | independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure | | | | | |
| EA12-2 | uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies | | | | | |
| EA12-3 | critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning | | | | | |
| EA12-4 | strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts | | | | | |
| EA12-5 | thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments | | | | | |
| EA12-6 | investigates and evaluates the relationships between texts | | | | | |
| EA12-7 | evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued | | | | | |
| EA12-8 | explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning | | | | | |
| EA12-9 | reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner | | | | | |

|-------------------------------------|---|-------------------------------|----------------------------------|---|-------|
| | Task 1 | Task 2 | Task 3 | Task 4 | |
| Task Description | Working Scientifically Assessment | Processing and analysing task | Research activity | Trial examination | |
| Task Type | Practical Task | Research Activity | Depth Study | Formal Examination | |
| Timing | Term 4 Week 9 | Term 1 Week 9 | Term 2 Week 7 | Term 3 Week 3-4 | |
| Outcome(s) | INS12 - 1, 2, 3, 5, 6, 7, 12 | INS12- 3, 4, 5, 7, 12, 13 | INS12 - 1, 3, 4, 5, 7, 14, 15 | INS12 - 1, 2, 3, 4, 5, 6, 7, 12, 13, 14, 15 | |
| | | SCHOOL-BASE | D ASSESSMENT REC | QUIREMENTS | |
| | | | WEIGHTING(S) | | |
| COMPONENTS | Task 1 | Task 2 | Task 3 | Task 4 | TOTAL |
| Skills in Working Scientifically | 15 | 10 | 20 | 15 | 60% |
| Knowledge and Understanding | 10 | 5 | 10 | 15 | 40% |
| TOTAL % | 25% | 15% | 30% | 30% | 100% |

| Outcomes – A | Outcomes – A student: | | | | |
|--------------|--|--|--|--|--|
| INS12 - 1 | Develops and evaluates questions and hypotheses for scientific investigation | | | | |
| INS12 - 2 | Designs and evaluates investigations in order to obtain primary and secondary data and information | | | | |
| INS12 – 3 | Conducts investigations to collect valid and reliable primary and secondary data and information | | | | |
| INS12 – 4 | Selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media | | | | |
| INS12 – 5 | Analyses and evaluates primary and secondary data and information | | | | |
| INS12 – 6 | Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes | | | | |
| INS12 - 7 | Communicates scientific understanding using suitable language and terminology for a specific audience or purpose | | | | |
| INS12 – 12 | Develops and evaluates the process of undertaking scientific investigations | | | | |
| INS12 – 13 | Describes and explains how science drives the development of technologies | | | | |
| INS12 – 14 | Uses evidence-based analysis in a scientific investigation to support or refute a hypothesis | | | | |
| INS12 – 15 | Evaluates the implications of ethical, social, economic and political influences on science | | | | |

Legal Studies - Year 12 S&S

Legal Studies – Year 12 Assessment Schedule

| | Task 1 | Task 2 | Task 3 | Task 4 | |
|--|-------------------------------|------------------|-----------------------------|---|-------|
| Task Description | Human Rights Research Task | Crime Topic Test | Consumers Research Essay | Trial | |
| Task Type | Research Task | Topic Test | Research essay | Exam | |
| Timing | Term 1 Week 2 | Term 1 Week 6 | Term 2 Week 4 | Term 3 Week 3/4 | |
| Outcome(s) | H2, H3, H4, H8 | H1, H6, 10 | H5, H7, H9 | H1, H2, H3, H4, H5, H6, H7, H8, H9, H10 | |
| | | SCHOOL-BASE | ED ASSESSMENT REC | QUIREMENTS | |
| | | | WEIGHTING(S) | | |
| COMPONENTS | Task 1 | Task 2 | Task 3 | Task 4 | TOTAL |
| Knowledge and understanding of course content | 5 | 10 | 5 | 20 | 40% |
| Analysis and evaluation | 5 | 5 | 5 | 5 | 20% |
| Inquiry and research | 10 | 5 | 5 | - | 20% |
| Communication of legal information, ideas and issues in appropriate forms | 5 | 5 | 5 | 5 | 20% |
| TOTAL | 25% | 25% | 20% | 30% | 100% |

| Outcomes – A | Outcomes – A student: | | | | |
|--------------|--|--|--|--|--|
| H1 | identifies and applies legal concepts and terminology | | | | |
| H2 | describes and explains key features of and the relationship between Australian and international law | | | | |
| Н3 | analyses the operation of domestic and international legal systems | | | | |
| H4 | evaluates the effectiveness of the legal system in addressing issues | | | | |
| H5 | explains the role of law in encouraging cooperation and resolving conflict, as well as initiating and responding to change | | | | |
| Н6 | assesses the nature of the interrelationship between the legal system and society | | | | |
| Н7 | evaluates the effectiveness of the law in achieving justice | | | | |
| H8 | locates, selects, organises, synthesises and analyses legal information from a variety of sources including legislation, cases, media, international instruments and documents | | | | |
| Н9 | communicates legal information using well-structured and logical arguments | | | | |
| H10 | analyses differing perspectives and interpretations of legal information and issues | | | | |

| Understanding, fluency and communication | 5 | 15 | 15 | 15 | 50% |
| Problem-solving, reasoning and justification | 10 | 10 | 15 | 15 | 50% |
| TOTAL | 15% | 25% | 30% | 30% | 100% |

| Outcomes – | Outcomes – A student: | | | |
|------------|--|--|--|--|
| MA12-1 | uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts | | | |
| MA12-2 | models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques | | | |
| MA12-3 | applies calculus techniques to model and solve problems | | | |
| MA12-4 | applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems | | | |
| MA12-5 | applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs | | | |
| MA12-6 | applies appropriate differentiation methods to solve problems | | | |
| MA12-7 | applies the concepts and techniques of indefinite and definite integrals in the solution of problems | | | |
| MA12-8 | solves problems using appropriate statistical processes | | | |
| MA12-9 | chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use | | | |
| MA12-10 | constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context | | | |

| Outcomes – A | Outcomes – A student: | | | | |
|--------------|---|--|--|--|--|
| MS2-12-1 | uses detailed algebraic and graphical techniques to critically evaluate and construct arguments in a range of familiar and unfamiliar contexts | | | | |
| MS2-12-2 | analyses representations of data in order to make inferences, predictions and draw conclusions | | | | |
| MS2-12-3 | interprets the results of measurements and calculations and makes judgements about their reasonableness, including the degree of accuracy and the conversion of units where appropriate | | | | |
| MS2-12-4 | analyses two-dimensional and three-dimensional models to solve practical problems | | | | |
| MS2-12-5 | makes informed decisions about financial situations, including annuities and loan repayments | | | | |
| MS2-12-6 | solves problems by representing the relationships between changing quantities in algebraic and graphical forms | | | | |
| MS2-12-7 | solves problems requiring statistical processes, including the use of the normal distribution and the correlation of bivariate data | | | | |
| MS2-12-8 | solves problems using networks to model decision-making in practical problems | | | | |
| MS2-12-9 | chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use | | | | |
| MS2-12-10 | uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response | | | | |

| TOTAL | 20% | 20% | 30% | 30% | 100% |

| Outcome | s – A student: |
|---------|---|
| H1 | performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble |
| H2 | reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied |
| H3 | improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied |
| H4 | articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles |
| H5 | critically evaluates and discusses performances and compositions |
| H6 | critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening |
| H7 | understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied |
| H8 | identifies, recognises, experiments with, and discusses the use and effects of technology in music |
| H9 | performs as a means of selfexpression and communication |
| H10 | demonstrates a willingness to participate in performance, composition, musicology and aural activities |
| H11 | demonstrates a willingness to accept and use constructive criticism |

| Outcome | s – A student: |
|---------|--|
| H1 | describes the nature and justifies the choice of Australia's health priorities |
| H2 | analyses and explains the health status of Australians in terms of current trends and groups most at risk |
| H3 | analyses the determinants of health and health inequities |
| H4 | argues the case for health promotion based on the Ottawa Charter |
| H5 | explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities |
| H6 | N/A |
| H7 | explains the relationship between physiology and movement potential |
| H8 | explains how a variety of training approaches and other interventions enhance performance and safety in physical activity |
| H9 | explains how movement skill is acquired and appraised |
| H10 | designs and implements training plans to improve performance |
| H11 | designs psychological strategies and nutritional plans in response to individual performance needs |
| H12 | N/A |
| H13 | selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity |
| H14 | argues the benefits of health-promoting actions and choices that promote social justice |
| H15 | critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all |
| H16 | devises methods of gathering, interpreting and communicating information about health and physical activity concepts |
| H17 | selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation |

| Outcome | s – Making - A student: |
|---------|--|
| M1 | generates a characteristic style that is increasingly self-reflective in their photographic and/or video and/or digital practice |
| M2 | explores concepts of artist/photographer, still and moving works, interpretations of the world and audience response, in their making of still and/or moving works |
| M3 | investigates different points of view in the making of photographs and/or videos and/or digital images |
| M4 | generates images and ideas as representations/simulations in the making of photographs and/or videos and/or digital images |
| M5 | develops different techniques suited to artistic intentions in the making of photographs and/or videos and/or digital images |
| M6 | takes into account issues of Work Health and Safety in the making of photographs and/or videos and/or digital works |
| Outcome | s – Critical and Historical studies |
| CH1 | generates in their critical and historical practice ways to interpret and explain photography and/or video and/or digital imaging |
| CH2 | investigates the roles and relationships among the concepts of artist, work, world and audience in critical and historical investigations |
| CH3 | distinguishes between different points of view and offers interpretive accounts in critical and historical studies |
| CH4 | explores ways in which histories, narratives and other accounts can be built to explain practices and interests in the fields of photography and/or video and/or digital imaging |
| CH5 | recognises how photography and/or video and/or digital imaging are used in various fields of cultural production |

| Outcomes – A student: | | | | |
|-----------------------|--|--|--|--|
| PH12-1 | develops and evaluates questions and hypotheses for scientific investigation | | | |
| PH12-2 | designs and evaluates investigations in order to obtain primary and secondary data and information | | | |
| PH12-3 | conducts investigations to collect valid and reliable primary and secondary data and information | | | |
| PH12-4 | selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media | | | |
| PH12-5 | analyses and evaluates primary and secondary data and information | | | |
| PH12-6 | solves scientific problems using primary and secondary data, critical thinking skills and scientific | | | |
| 1112-0 | processes | | | |
| PH12-7 | communicates scientific understanding using suitable language and terminology for a specific | | | |
| F1112=7 | audience or purpose | | | |
| PH12-12 | describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational | | | |
| 11112-12 | field, in particular, the projectile motion of particles | | | |
| PH12-13 | explains and analyses the electric and magnetic interactions due to charged particles and currents | | | |
| FIIIZ-IJ | and evaluates their effect both qualitatively and quantitatively | | | |
| PH12-14 | describes and analyses evidence for the properties of light and evaluates the implications of this | | | |
| FU12-14 | evidence for modern theories of physics in the contemporary world | | | |
| | explains and analyses the evidence supporting the relationship between astronomical events and | | | |
| PH12-15 | the nucleosynthesis of atoms and relates these to the development of the current model of the | | | |
| | atom | | | |

| TOTAL | 20% | 20% | 30% | 30% | 100% |

| Outcomes – A | student: |
|--------------|--|
| H1.1 | explains the interrelationship between hardware and software |
| H1.2 | differentiates between various methods used to construct software solutions |
| H1.3 | describes how the major components of a computer system store and manipulate data |
| H2.1 | explains the implications of the development of different languages |
| H2.2 | explains the interrelationship between emerging technologies and software development |
| H3.1 | identifies and evaluates legal, social, and ethical issues in a number of contexts |
| H3.2 | constructs software solutions that address legal, social, and ethical issues |
| H4.1 | identifies needs to which software solutions are appropriate |
| H4.2 | applies appropriate development methods to solve software problems |
| H4.3 | applies a modular approach to implement well-structured software solutions and evaluates their effectiveness |
| H5.1 | applies project management techniques to maximise the productivity of the software development |
| H5.2 | creates and justifies the need for the various types of documentation required for a software solution |
| H5.3 | selects and applies appropriate software to facilitate the design and development of software solutions |
| H6.1 | assesses the skills required in the software development cycle |
| H6.2 | communicates the processes involved in a software solution to an inexperienced user |
| H6.3 | uses and describes a collaborative approach during the software development cycle |
| H6.4 | develops and evaluates effective user interfaces, in consultation with appropriate people |

Sport, Lifestyle and Recreation - Year 12 S&S
